In the email chain there is a reference to a r8 meeting with ow and ogc. Do we know anymore about when and who and have we discussed at the program level where we are in this. I haven't been involved w this project to date and would like to know if any program staff have been involved who has and what a position is.

We would be happy to address any questions that remain, and would very much appreciate the opportunity to discuss your conclusions in a meeting or teleconference following your review of this material.
